I'm a Backend Developer experienced in ASP.NET Core, C#, Entity Framework, and SQL. I also work confidently with modern frontend and full-stack technologies such as React.js, JavaScript/TypeScript, Tailwind CSS, and Node.js. I build fast and secure APIs, implement JWT-based authentication systems, and design scalable databases. I focus on automating processes to reduce costs and improve performance. I'm a strong team player, a quick learner of new technologies, and highly adaptable to change. I follow modern design principles and industry best practices to deliver high-quality software solutions.

SKILLS

- ASP.NET CORE
- C#
- Entity Framework
- SQL
- JavaScript
- TypeScript
- Tailwind CSS
- React.js
- Node.js

WORK EXPERIENCE

Software Engineer Intern

Imecar Electronic

ANTALYA

10-2024, 11-2024

- Architected and implemented enterprise-level authentication system using .NET Core and Keycloak, achieving 99.9% uptime.
- Designed and implemented a WinForms automation tool, reducing manual processing time from 72 hours to 2 hours, increasing operational efficiency by over 90%.

Software Engineer Intern

Patika Global Technology

İSTANBUL

07-2024, 08-2024

- The AI-based system I developed with Python and FastAPI increased team-customer communication efficiency by 30% and provided customized customer solutions.

Software Engineer Intern

Morphosium Software

ALANYA

07-2023, 08-2023

- Built robust .NET RESTful APIs handling 10K+ daily requests; implemented authentication, authorization, and user management, cutting security incidents by 30% and boosting response times by 25%.
- Created Swagger/OpenAPI documentation, reducing onboarding time by 35% and lowering API errors by 20%.

EDUCATION

Bachelor of Computer Engineering 100% English - Alanya Alaaddin Keykubat University - 09-2019, 01-2025

Awarded by TÜBİTAK for the Artificial Intelligence Project (Spotsight)

LANGUAGES

English: B2

Turkish: Native

CERTIFICATIONS

[FOUNDATIONAL C# WITH MICROSOFT](#) (MICROSOFT)

JAVA MICROSERVICES ARCHITECTURE (TÜBİTAK)
